## GOING GREEN!

We are doing our small part to help the environment in the following ways:

Our Plates are made from Bagasse – sugarcane. Our Cold Cups and utensils are made from corn. Both are renewable resources and are bio-degradable in a compost heap.

The remainder of our Express Catering platters and bowls are made from recycled paper or plastic.

Cape Express Catering does their share for the environment. We separate all our garbage – cans, bottles, plastic, cardboard etc gets recycled. Vegetable off cuts get collected and dropped off at the Trustee's Garden for Composting.

### PLEASE NOTE:

As we prepare your food fresh for you, some Menus require 24hrs notice.

For our full service catering menus please visit:
